Learning Community Responsibilities

Facilitator

- Directs talking traffic
- Writes on whiteboard only what group tells them
- Rotates after each problem (does not copy problem on their paper)

Learning Community

- Prioritizes collective understanding over completion of the task
- Ensures equity of voice
- Asks clarifying/ extension questions For example: Why did you do that? How does that work? *What if...

Group

- Writes on their own paper what is written on the board
- Asks questions when they don't know why they have written down what they have.

These ideas are those of Joseph Manfre.
